## WORK EXPERIENCE

### Self Employed

#### ***HVAC and General Maintenance Technician***

Columbia, SC | Aug 2025 - Present

- Installation, maintenance, and cleaning of residential HVAC systems.
- Install plumbing and electrical fixtures; repair and renovate decking, fencing, and other residential features.

### MTC

#### ***HVAC Technician***

Florence, SC | Mar 2020 - Aug 2025

- Installation, maintenance, and cleaning of residential and commercial HVAC and refrigeration systems.

### Baker Distributing

#### ***Warehouse Manager***

Florence, SC | Oct 2018 - Dec 2023

- Improved Inventory Records Accuracy and Cycle Count Variance by 75% over 5 years: Oversaw ordering, receiving, and organization of refrigeration and HVAC inventory items.
- Processed warranty claims and answered sales and technical inquiries at the counter and on the phone.
- Held third-key holder responsibilities, including opening/closing duties, after-hours and weekend on-call requests, and team oversight.
- Repaired facilities and damaged HVAC units and resolved basic IT-related issues to minimize downtime.

### Pilot Logistic Services (General Electric)

#### ***Wire Setup Technician / Shift Lead***

Florence, SC | Mar 2015 - Oct 2018

- Promoted to Wire Setup Technician within seven months: Handled precise wire configurations and setups for industrial equipment.
- As a Material Handler, delivered materials, loaded/unloaded freight trucks, and maintained accurate inventory records using Oracle ERP.
- Advanced to 2nd-Shift Lead: Oversaw team operations, coordinated workflow, and ensured production targets and quality standards were met.

## Viking Fire Protection

### **Pipefitter**

Florence, SC | Aug 2012 - Feb 2015

- Conducted routine inspections of installed piping, identified potential issues, and supported corrective maintenance. Maintained tools and equipment, upheld jobsite safety standards, and contributed to zero incident project delivery.
- Safely and efficiently operated scissor lifts and forklifts to stage and position heavy piping materials.
- Fabrication, alignment, and installation of fire-protection piping systems according to blueprints.
- Cut, threaded, and beveled carbon steel and stainless-steel pipe using threading machines and cutting torches.

## Evening Shade

### **Tint Installer**

Florence, SC | Aug 2009 - Aug 2012

- Installed window tint on automotive and commercial windows with precision and attention to detail.
- Provided customer support, answering inquiries, scheduling appointments, and resolving concerns.
- Assisted with sales by recommending tint options, explaining benefits, and processing transactions.

## MasTec for DirectTV

### **Satellite Installation Technician**

Florence, SC | Mar 2007 - July 2009

- Installed residential satellite dishes on roofs and exterior walls, running and terminating RG-6 coaxial cable with proper grounding in compliance with NEC and company standards.
- Diagnosed and resolved signal issues and provided clear usage instructions to customers.
- Operated a company vehicle to complete service calls on time and according to routing plans. Maintained a strong safety focus by following fall-protection protocols and completing installations efficiently.

## ESAB Group

### **Material Handler B / Maintenance**

Florence, SC | Jan 2004 - Mar 2007

- Managed inbound and outbound freight operations
- Operated material handling equipment such as forklifts, aisle-changing cranes, and pallet jacks.
- Performed preventive maintenance on electric forklifts and cranes.
- Conducted cycle counts and maintained accurate inventory records.

## H R S Textiles, Inc

### **Raw Materials and Maintenance Technician**

Darlington, SC | Aug 1998 - Dec 2003

- Managed chemical and dye formulations for non-woven textile production lines, refining mix ratios over time to enhance product consistency and throughput. Treated plant wastewater using pH adjustment and filter-press methods, ensuring compliance with environmental and safety standards.
- Operated forklifts to support shipping operations, efficiently loading and staging outgoing freight.
- Transitioned into maintenance technician role – performing preventive and corrective maintenance on pumps, conveyors, and auxiliary equipment, minimizing downtime and extending asset life.
